## Notes to the Condensed Consolidated Interim Financial Statements

For the three and six months ended June 30, 2024 and 2023

(in thousands of Canadian dollars, except Unit and per Unit amounts)

### 1. Description of the entity

Minto Apartment Real Estate Investment Trust (the "REIT") is an unincorporated, open-ended real estate investment trust established pursuant to a Declaration of Trust dated April 24, 2018, which was amended and restated on June 27, 2018, and has been amended from time to time. The REIT owns, develops and operates a portfolio of income-producing multi-residential rental properties located in Canada.

The REIT was established under the laws of the Province of Ontario. The principal and registered office of the REIT is 200-180 Kent Street, Ottawa, Ontario.

At June 30, 2024, the REIT's portfolio consists of interests in 28 (December 31, 2023 - 29) multi-residential rental properties, including four mixed-use residential apartment and commercial buildings, all of which are held by Minto Apartment Limited Partnership (the "Partnership"), which is consolidated by the REIT.

### 2. Material accounting policies

#### (a) Statement of compliance

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB").

The unaudited condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the REIT's audited consolidated financial statements for the years ended December 31, 2023 and 2022 (the "Annual 2023 Financial Statements"), which were prepared in accordance with IFRS Accounting Standards as issued by the IASB.

These unaudited condensed consolidated interim financial statements were approved by the Board of Trustees of the REIT and authorized for issuance on August 13, 2024.

#### (b) Basis of presentation and measurement

These unaudited condensed consolidated interim financial statements have been prepared on a historical cost basis, except for investment properties, Class B units of the Partnership ("Class B LP Units"), Unit-based compensation and interest rate swap, which have been measured at fair value. The unaudited condensed consolidated interim financial statements have been presented in Canadian dollars, which is the REIT's functional currency.

The REIT's business faces risk from prominent economic factors, specifically, high interest rates and inflation. The REIT has used all information available as at June 30, 2024 that it considers relevant in determining the potential impact of these economic factors on the carrying amounts of assets and liabilities, earnings for the period and risks disclosed in the unaudited condensed consolidated interim financial statements for the three and six months ended June 30, 2024. The estimates and judgements that could be most significantly impacted by economic factors include those underlying the valuation of investment properties. Actual results could differ from those estimates. Investment properties (Note 3) and risk management (Note 19) include disclosures of the potential impacts of economic factors on the fair value of investment properties and liquidity risk. The REIT continues to monitor and assess the impact that economic factors will have on its business activities and financial results.

The operating results for the six months ended June 30, 2024 are not necessarily indicative of results that may be expected for the year ending December 31, 2024 due to seasonal variations in property expenses and other factors.

The REIT's material accounting policies were presented in Note 2 of the Annual 2023 Financial Statements and have been consistently applied in the preparation of these unaudited condensed consolidated interim financial statements.

#### (c) Adoption of new standards, amendments and interpretations

The following amended accounting standard was adopted by the REIT when it became effective on January 1, 2024:

- *Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)*

Balance, June 30, 2024	\$	2,322,635	\$	24,414	\$	98,308	\$	2,445,357

For the six months ended June 30, 2024, the REIT capitalized \$2,167 (June 30, 2023 - \$1,234) in interest costs associated with the REIT's general borrowings and the construction loan to the respective developments. The REIT's weighted average borrowing rate on general borrowings was 7.03% (June 30, 2023 - 6.73%). Interest costs associated with the construction loan were capitalized to the related development using the actual borrowing rate associated with the loan.

The fair value methodology for the REIT's investment properties is considered level 3, as significant unobservable inputs are required to determine fair value. The fair value of investment properties is based on internal valuations and as at June 30, 2024, the entire portfolio was internally valued. The REIT's internal valuation team consists of qualified individuals who hold recognized relevant professional qualifications and have experience in the location and category of the respective properties.

The REIT conducts external appraisals of a third of its portfolio annually to ensure that every property is externally appraised at least once every three years. These external appraisals are used by Management to assist in the validation of the market assumptions and data used as part of the internal valuation model.

The REIT continues to review market capitalization, discount and terminal capitalization rates, as well as its future cash flow projections and their impact on the valuation of its properties in light of economic factors (Note 2). The carrying value of the REIT's investment properties reflects Management's best estimate of fair value in terms of the assessed highest and best use as at June 30, 2024. It is not possible to forecast with certainty the duration or full scope of the financial impact that economic factors will have on the REIT's business and operations, both in the short and long term. Any long-term effects on market rents, occupancy, turnover, future demand, and interest rates could impact the underlying valuation of investment properties and such impact may be material.

Fair value for residential properties is predominantly determined using the direct capitalization approach and includes a deduction for estimated aggregate future capital expenditures. For the six months ended June 30, 2024, the aggregate five-year estimated future capital expenditures deducted was \$83,176 (December 31, 2023 - \$89,501) in determining the fair value of residential properties.

Unaudited

(in thousands of Canadian dollars, except Unit and per Unit amounts)

The following table summarizes the significant unobservable inputs in determining fair value of residential properties:

Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Capitalization rates	There is an inverse relationship between the capitalization rates and the fair value; in other words, the higher the capitalization rates, the lower the estimated fair value.
Estimated 12 month stabilized forecasted net operating income ("NOI")	There is a direct relationship between the estimated 12-month stabilized forecasted NOI and the fair value; in other words, the higher the estimated 12-month stabilized forecasted NOI, the higher the estimated fair value.

The following table summarizes the capitalization rates used in determining the fair value of the REIT's residential properties:

	June 30, 2024			December 31, 2023

#### **Mortgages**

The mortgages are secured by investment properties and mature at various dates between 2025 and 2033 (December 31, 2023 - 2024 and 2033). The fixed rate mortgages include a \$34,684 (December 31, 2023 - \$35,217) variable interest mortgage fixed through an interest rate swap. The mortgages secured by investment properties have a weighted average effective interest rate of 3.38% (December 31, 2023 - 3.37%).

#### **Construction loan**

The REIT has a fixed rate non-revolving construction loan commitment of \$93,745 and as at June 30, 2024, \$24,484 (December 31, 2023 - \$15,155) was drawn. The construction loan is used to finance the construction of a new 225-suite residential rental property on surplus land at the REIT's Richgrove property in Toronto, Ontario and is secured by a first priority mortgage on the project. The loan bears fixed interest at 2.39% and matures on March 1, 2032. Payments are made monthly on an interest-only basis.

The REIT has a revolving credit facility that is secured by several investment properties, matures on July 3, 2025 and is used to fund working capital requirements, acquisitions, letters of credit and for general corporate purposes. On June 26, 2024, in connection with the benchmark interest rate reform in Canada to replace Canadian Dollar Overnight Rate with Canadian Overnight Repo Rate Average ("CORRA"), the REIT amended the terms of the revolving credit facility to replace the one-month bankers' acceptance plus 175 bps with the economically equivalent Adjusted Canadian Overnight Repo Rate Average ("Adjusted CORRA") plus 175 bps. The credit facility bears interest at the one-month Adjusted CORRA plus 175 bps (December 31, 2023 - one-month bankers' acceptance plus 175 bps) or prime plus 75 bps. As at June 30, 2024, the weighted average variable interest rate was 6.87% (December 31, 2023 - 7.25%). Given the variable nature of the credit facility, its carrying value approximates its fair value.

The following table reconciles the changes in cash flows for the credit facility:

Six months ended		June 30, 2024		June 30, 2023
Opening balance	\$	140,236	\$	157,158

As at June 30, 2024 and December 31, 2023, the REIT was in compliance with all financial covenants relating to its credit facility.

## 12. Related-party transactions

In the normal course of operations, the REIT enters into various transactions with related parties which are recorded at exchange value. In addition to the related party transactions disclosed elsewhere in these unaudited condensed consolidated interim financial statements, related party transactions include:

### (a) Administrative Support Agreement

For the three and six months ended June 30, 2024, the REIT incurred \$565 and \$1,130 (June 30, 2023 - \$565 and \$1,130) for services rendered by Minto Properties Inc. ("MPI") and its affiliates under the Administrative Support Agreement.

<sup>1</sup> Effective July 1, 2023, the interest rate is equal to the all-in interest rate the REIT pays on the credit facility on a monthly basis, subject to a maximum interest rate of 7% per annum and minimum interest rate of 5% per annum. Prior to the effective date of this amendment, the interest rate on the loan was 6% per annum.

<sup>2</sup> Effective June 1, 2024, the interest rate is equal to the all-in interest rate the REIT pays on the credit facility on a monthly basis, subject to a maximum interest rate of 7.25% per annum and minimum interest rate of 5.25% per annum. Prior to the effective date of this amendment, the interest rate on the loan was 6% per annum.

<sup>3</sup> The interest rate per annum is set quarterly at the greater of prime and the prescribed interest rate as determined by the Regulations of the Income Tax Act (Canada) to a maximum of 5%. Interest is payable annually in arrears.

All commitments pertaining to projects include a reserve to fund interest costs. If the interest reserve is fully utilized, the interest is paid to the REIT on a monthly basis. In connection with these financings, the REIT will have the exclusive option to purchase the property at Lonsdale Square and 88 Beechwood, MPI's 85% indirect ownership interest in The Hyland and MPI's 45% indirect ownership interest in University Heights, upon project stabilization at 95% of then-appraised fair market value as determined by independent and qualified third-party appraisers. As at June 30, 2024, the expected credit loss ("ECL") based on 12 month expected losses for the loans receivable is \$nil (December 31, 2023 - \$nil).

On January 31, 2024, the REIT received repayment of the balance owing for the loan associated with the Fifth and Bank project.

On May 7, 2024, the REIT and MPI amended the maturity date of the loan agreement associated with the Hyland and the REIT's purchase option for an indirect interest in the property. The REIT's purchase option was extended to February 28, 2025, and the maturity date was extended to April 30, 2025. In addition, the 6% annual interest rate was amended and effective June 1, 2024, equals the all-in interest rate the REIT pays on the credit facility on a monthly basis, subject to a maximum interest rate of 7.25% per annum and minimum interest rate of 5.25% per annum.

### 15. Segment reporting

The REIT owns, manages and operates 28 (December 31, 2023 - 29) multi-residential rental properties located in Canada, including four mixed-use residential apartment and commercial buildings. Management, when measuring the REIT's performance, does not distinguish or group its operations on a geographical or any other basis. ### 18. Contingencies and commitments

The REIT is subject to claims and legal actions that arise in the ordinary course of business. It is the opinion of Management that any ultimate liability that may arise from such matters would not have a significant adverse effect on the unaudited condensed consolidated interim financial statements of the REIT.

The REIT has an off-balance sheet arrangement at one of its properties in the Toronto area which was acquired in 2018 pursuant to which the City of Toronto provided a forgivable loan to support affordable housing at this property. Provided that certain conditions are met, the REIT will not need to make repayments under this arrangement. As of June 30, 2024, the remaining unforgiven balance of the loan is \$11,016 (December 31, 2023 - \$12,240). To date, the REIT has met all conditions related to this forgivable loan and Management has assessed that throughout the remaining term of the loan the REIT is likely to continue to meet the conditions for forgiveness and that the outflow of economic resources to settle the loan is not probable. As such, no liability has been recorded by the REIT.

The REIT has an off-balance sheet arrangement at one of its properties in the Calgary area which was acquired in 2018 pursuant to which the Province of Alberta provided a forgivable loan to support affordable housing at this property. Provided that certain conditions are met, the REIT will not need to make repayments under the arrangement. As of June 30, 2024, the remaining unforgiven balance of the loan is \$2,688 (December 31, 2023 - \$3,024). To date, the REIT has met all conditions related to this forgivable loan and Management has assessed that throughout the remaining term of the loan the REIT is likely to continue to meet the conditions for forgiveness and that the outflow of economic resources to settle the loan is not probable. As such, no liability has been recorded by the REIT.

As at June 30, 2024, the REIT has committed to advance to related parties an additional \$3,994 in order to support two development projects (December 31, 2023 - \$19,501 to support three development projects) and an additional \$12,747 (December 31, 2023 - \$14,642) to fund interest costs to support three development projects.

The REIT is a guarantor on a joint and several basis for mortgage debt held through one of its joint operations. As at June 30, 2024, the maximum potential obligation resulting from this guarantee is \$12,139 (December 31, 2023 - \$12,326).

### 19. Risk management

The REIT's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk.

#### Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk consists of interest rate risk, currency risk and other price risk.

##### (a) Interest rate risk

As the REIT's interest-bearing assets mainly comprise fixed rate instruments, changes in market interest rates do not have any significant direct effect on the REIT's income.

The REIT's financial liabilities comprise both fixed rate and variable rate instruments.

The REIT faces interest rate risk on its fixed rate debt due to the expected requirement to refinance such debt in the year of maturity or shortly thereafter. The REIT manages interest rate risk by structuring its financings to stagger the maturities of its debt, thereby mitigating its exposure to interest rate and other credit market fluctuations.

For the portion of the REIT's financial liabilities that comprise variable rate instruments, from time to time the REIT may enter into interest rate swap contracts or other financial instruments to modify the interest rate profile of its outstanding debt without an exchange of the underlying principal amount.

As at June 30, 2024, the REIT has a committed variable rate credit facility of \$300,000 (December 31, 2023 - \$300,000) with an availability of \$246,963 (December 31, 2023 - \$236,034) and amounts drawn of \$88,033 (December 31, 2023 - \$140,236). A 1% change in prevailing interest rates would change annualized interest charges incurred by \$880 (December 31, 2023 - \$1,402).

##### (b) Currency risk

The REIT's financial statement presentation currency is Canadian dollars. Operations are located in Canada and the REIT has limited operational transactions in foreign-denominated currencies. As such, the REIT has no significant exposure to currency risk.

##### (c) Other price risk

Other price risk is the risk of variability in fair value due to movements in equity prices or other market prices such as commodity prices and credit spreads.

The REIT is exposed to other price risk on its Class B LP Units. A 1% change in the prevailing market price of the Units as at June 30, 2024 would have a \$3,807 (December 31, 2023 - \$4,167) change in the fair value of the Class B LP Units.

#### Credit Risk

Credit risk is the risk that tenants and/or debtors may experience financial difficulty and be unable to fulfill their lease commitments or loan repayments. An allowance is recorded for the ECL.

The REIT's risk of credit loss from tenants experiencing financial difficulties is mitigated through diversification. The REIT's residential rental business is carried on in the Toronto, Montreal, Ottawa and Calgary regions. The nature of this business involves a high volume of tenants with individually small monthly rent amounts. The REIT monitors the collection of residential rent receivables on a regular basis with strictly followed procedures designed to minimize credit loss in cases of non-payment.

The REIT is also exposed to the concentration of credit risk in relation to the loans advanced, in the event that the borrowers default on the contractual terms of repayment of amounts owing to the REIT. The REIT provides financing to MPI and affiliates of MPI for strategic developments and, in turn, receives an option to acquire an ownership interest in those developments. Management mitigates this risk by ensuring there is sufficient security provided by the development assets in addition to guarantees provided by MPI for loans advanced to affiliates of MPI.

### Liquidity risk

Liquidity risk is the risk that the REIT will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The REIT's liquidity is subject to macroeconomic, financial, competitive and other factors that are beyond the REIT's control.

Liquidity risk is managed through cash flow forecasting. Management monitors forecasts of the REIT's liquidity requirements to ensure it has sufficient cash to meet operational needs through maintaining sufficient cash and/or availability on the undrawn credit facility and ensuring that it meets its financial covenants related to debt agreements. Such forecasting takes into consideration the current and projected macroeconomic conditions, the REIT's cash collection efforts, debt financing plans and covenant compliance required under the terms of debt agreements. There is a risk that such liquidity forecasts may not be achieved and that currently available debt financing may no longer be available to the REIT at terms and conditions that are favourable to the REIT, or at all.

The REIT mitigates liquidity risk by staggering the maturity dates of its borrowing, maintaining borrowing relationships with various lenders, proactively renegotiating expiring credit agreements well in advance of the maturity date and by maintaining sufficient availability on its credit facility.

As of June 30, 2024, current liabilities, excluding Class B LP Units which are exchangeable for Units, of \$142,259 (December 31, 2023 - \$137,334) exceeded current assets of \$52,939 (December 31, 2023 - \$71,589), resulting in a net working capital deficit of \$89,320 (December 31, 2023 - \$65,745). The REIT's immediate liquidity needs are met through cash on hand, cash flow from operations, refinancing of maturing mortgages and availability on its credit facility. As of June 30, 2024, liquidity was \$164,016 (December 31, 2023 - \$97,516) consisting of cash of \$7,108 (December 31, 2023 - \$3,740) and \$156,908 (December 31, 2023 - \$93,776) of available borrowing capacity under the credit facility. Management believes that there is sufficient liquidity to meet the REIT's financial obligations.

## 20. Capital risk management

The REIT's capital consists of Class B LP Units, Class C LP Units, mortgages, a construction loan, a credit facility and Unitholders' equity. The REIT invests its capital to achieve its business objectives and to generate an acceptable long-term return to the REIT's Unitholders. Primary uses of capital include property acquisitions, development activities, capital improvements, debt principal repayments and convertible development loans.

The REIT's principal objective with respect to debt financing is to minimize its overall borrowing costs while maintaining balance in its maturity schedule, diversity in its lender base and having sufficient liquidity and flexibility to meet current obligations and to pursue new projects.

The actual level and type of future financings to fund the REIT's capital obligations will be determined based on prevailing interest rates, various costs of debt and/or equity capital, capital market conditions and Management's general view of the appropriate leverage in the business.

The REIT closely monitors its capital position. The REIT is also subject to certain financial covenants and is in compliance with these covenants. Management has performed stress testing on the REIT's covenants to ensure that the REIT continues to meet its covenant obligations in the long term.

The components of the REIT's capital are set out in the table below:

	June 30, 2024	December 31, 2023
