

## Indoor Air Quality

**90%**

of our lives spent indoors

**2-5x**

more pollution indoors than outdoors

### Common Allergens in Indoor Air<sup>1</sup>

DUST

PET DANDER

POLLEN

MOLD

VOCs

SMOKE

# 9,000 Litres

THE AMOUNT OF OXYGEN A PERSON CONSUMES IN A DAY

#### Quantity of air humans breathe

- Each day we consume nearly 8 times as much air by volume as food and 4 times as much air as water (air – 31lbs, water – 8lbs, food – 4lbs)<sup>2</sup>

#### Air Quality humans breathe daily

- Almost 90% of our time is spent indoors and almost 70% in our homes (Indoors 87%, Home 69%)<sup>3</sup>
- Indoor air often contains 2x-5x as much pollution as outdoor air<sup>4</sup>

## ECOBEE THERMOSTAT

In addition to the easy-to-set thermostat in your home, you can also set your home's temperature remotely on your desktop or within the mobile app.

## REMOTE TEMPERATURE & OCCUPANCY SENSOR

Place sensors to keep important rooms comfortable and manage hot or cold spots. The smart sensor automatically adjusts the temperature for energy savings when you leave home and restores your comfort settings when you return.

## INDOOR AIR QUALITY MONITORING

Unlock superior home health with a built-in air quality monitor that alerts you when the air quality is poor and provides simple steps on how to improve it.

## HVAC PERFORMANCE MONITORING

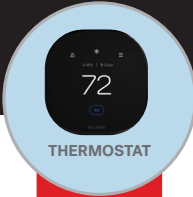

The app notifies you of sudden temperature drops that could result in frozen or burst pipes and when the system needs maintenance.

# Improving Indoor Air Quality

- 1. Awareness** - empowering homeowners to take action by raising awareness about air quality and solutions to create a healthier environment.
- 2. Ventilation** - whole home ventilation with an energy recovery ventilator (ERV) replaces stale indoor air with fresh outdoor air
- 3. Maintain HVAC** - clean or replace air filters regularly and service equipment annually

## Ecobee Premium with Enercare Smarter Home®

- Reduces energy consumption by automatically adjusting the temperature with the smart sensor when no one is home.
- Built-In air quality monitor that alerts you when air quality is poor and can send reminders when it's time to change the furnace's air filter
- Smart Sensors adjusts the temperature in rooms with hot or cold spots to keep you comfortable anywhere in the home
